MTP 2045

APPENDIX F

Project Dossiers

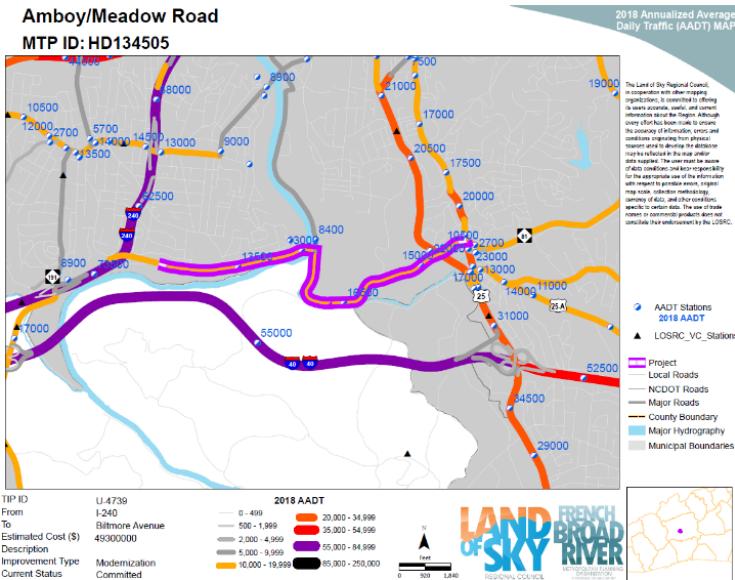

a program of Land of Sky

FRENCH BROAD RIVER

METROPOLITAN PLANNING ORGANIZATION

Project Dossiers

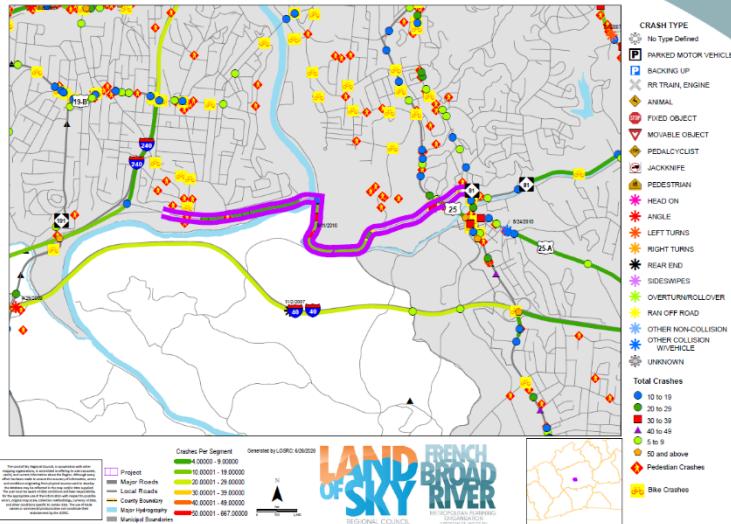

The following section of the MTP helps provide better communication of the surrounding Context for each planned transportation project. Maps have been developed using data from local, state, and federal sources in order to provide and understanding of the past, present, and projected future of projects. The criteria used include volume /AADT, crash history , roadway classification, environmental justice, and hazard mapping.

AADT Map: shows the project with nearby AADT (Annual Average Daily Traffic) count stations. Traffic count information is collected and provided by NCDOT. Most of the stations are based on 2018 data.

Amboy/Meadow Road

MTP ID: HD134505

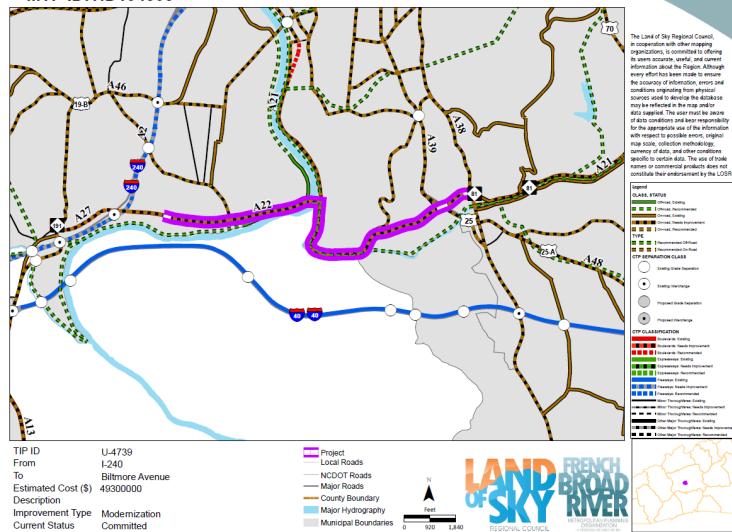

2018 CRASH MAP
FBRMPO

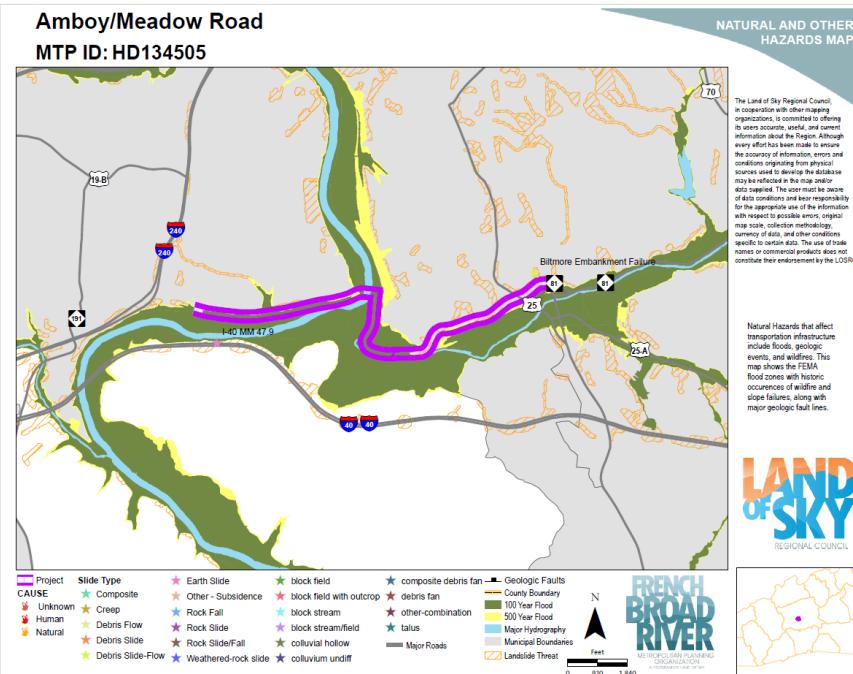

Safety Map: uses crash data provided by NCDOT to illustrate the crash history for all users in the project area. Crashes are categorized by type, and intersections are summarized by total number of crashes. Crash data used covers the five year period from 2014 through 2018.

Amboy/Meadow Road

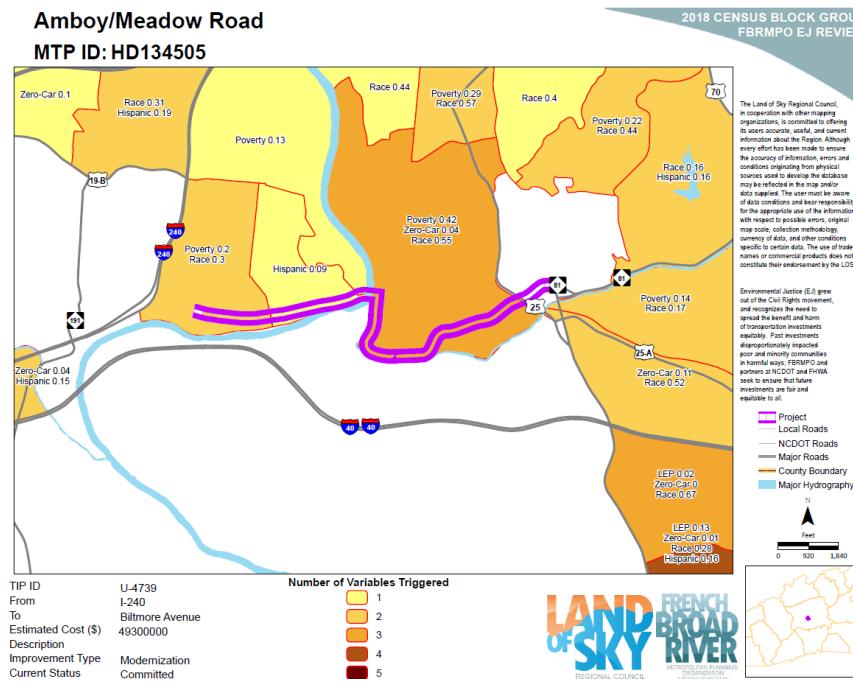

MTP ID: HD134505

CTP Map: gives a general context of the MTP project and illustrates major roads and the project classification found in the MPO's Comprehensive Transportation Plan (CTP.) This includes class of roadway, Municipal boundaries, water features and surrounding intersections/ interchanges.

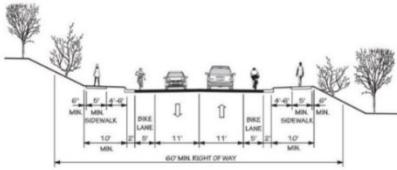

Natural and Other Hazards Map: shows surrounding historic hazards, including past landslides, slope failures, wildfires, and other known or potential hazards.

Environmental Justice: shows surrounding areas of concern pertaining to environmental justice and also illustrates the Communities of Concern, detailed in the Environmental Justice chapter. Values shown are at the block group level and our percentage is out of 1.0

HD134505 – Amboy/Meadow Road Modernization

Jurisdictions Impacted	Buncombe County, City of Asheville
Current Status	Funded, TIP (U-4739)
AADT	14,000 – 17,000
Complete Streets Reference	Asheville Bike/Ped Plans, Blue Ridge Bike Plan, CMP
Current Sidewalks	No
Current Bike Facilities	No

Anticipated Cross Section + Multi-Use Path & Protected Bike Facilities

See [Project Data Sheet](#) for latest information

General Information and Design: *These dossiers are accessible project-by-project through the MTP Online Project Map -[HERE](#)* gives the basic information for each project (project description, cost estimate, and project termini) as well as information on the current designs of each project. Some funded projects have more updated designs, others have NCDOT cross-sections that cost estimates are based on. NOTE: many projects in the MTP do not have completed designs and may change as engineering is completed.
