

# **French Broad River Metropolitan Planning Organization**

Minutes from the TCC Virtual Meeting via Zoom on January 13, 2022

## **ATTENDANCE:**

### Remote via the Zoom Platform:

Vice Chair William High	Tristan Winkler	Emily Scott-Cruz	John Ridout
Hannah Bagli	McCray Coates	Troy Wilson	Steve Williams
Jessica Morriss	Marshall Williams	Nathan Bennett	Jodie Ferguson
Jessica Trotman	Hannah Cook	Pat Christie	Stephen Sparks
Janna Bianculli	Daniel Sellers	David Wasserman	Harry Buckner
Kim Roney	David White	Daniel Metcalf	Steve Cannon
Daniel Cobb	Michael Dawson	Chris Medlin	Elizabeth Teague
Eric Rufa	Brendan Merithew	Matt Baker	Matthew Cable
Lucy Crown	Troy Wilson	Theresa Robinson	Ed Evans
Matthew Manley	Rose Bauguess	Jared Merrill	Jack Henderson
Chris Lee	Anne Keller	Erica Anderson	Jane Pies (Minutes)

## **WELCOME AND HOUSEKEEPING**

Vice Chair William High called the meeting to order, welcomed everyone, and roll call followed. Quorum was established for conducting the business of the TCC.

## **PUBLIC COMMENT**

Vice Chair High called for public comments. No public comments were received.

## **CONSENT AGENDA**

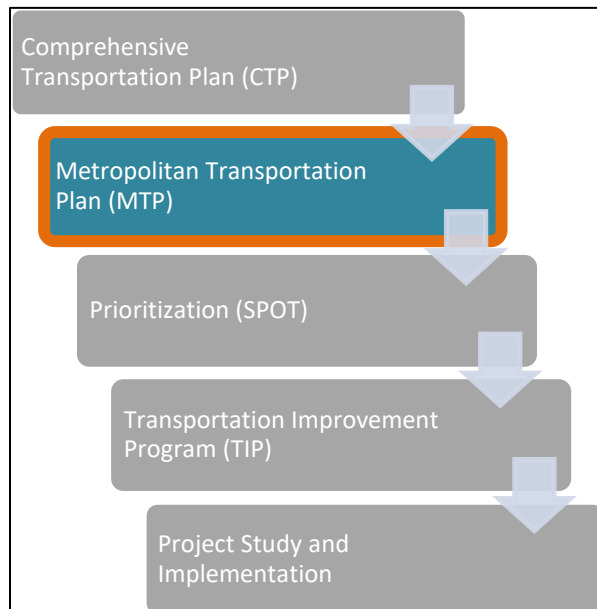

Vice Chair High indicated that the consent agenda included the November 2021 minutes, the Locally Administered Projects Program (LAPP) Quarterly Update, and the Locally Administered Projects Program (LAPP) Call for Projects. He requested approval of the TCC agenda, as well.

***A motion was made to approve the consent agenda and the TCC agenda, as presented. Jessica Morriss seconded the motion, which carried unanimously, upon a roll call vote, and without further discussion.***

## **BUSINESS**

### Proposed New I-26 Interchange & Amendment to the MTP

Very Brief Overview: The Metropolitan Transportation Plan (MTP) is a federally required planning document that MPOs are required to update and maintain to reflect planned transportation investments in the region over the next twenty-five years. The MTP is required to be fiscally constrained, meaning that projects in the MTP have to be reasonably expected to work within projected revenues. The French Broad River MPO is required to update its MTP every five years with the last update completed in September 2020. NOTE: an amendment was made in June 2021.

### Amendment Summary

- Add a new interchange to I-26 in Buncombe County near mile marker 35, between Exit 33 (NC 191/Brevard Road) and Exit 37 (NC 146/Long Shoals Road), to connect to an access road to the Pratt & Whitney site and NC 191. The project's TIP ID is HE-0001.

MTP ID	TIP ID	Route	From/To	Improvement	Estimated Cost	Amendment Detail
HD134532	HE-0001	I-26	Near Mile marker 35	Construct New Interchange and Access Road to Fredrick Law Olmsted Way East	\$30,000,000	Add Project to the MTP at the request of NCDOT

### Project Background

#### HE-0001 Project Background

In January 2021, Pratt & Whitney announced that it would be building a new 1.2 million square foot manufacturing facility in southern Buncombe County that will employ roughly 800 people and include an investment of up to \$650 million. Overall, the economic impact of the new facility's employment and wages is projected to be roughly \$72 million with several of Buncombe County's economic development goals being met. The County also agreed to up to \$27 million in economic incentives, to be provided over time, if goals are met.

At roughly the same time the development was announced, work began on an access road (Project Ranger) to the site that includes a new bridge over the French Broad River to NC 191, funded by the Golden Leaf Foundation and Biltmore Farms. This project would provide access between NC 191 and the Pratt & Whitney facility.

As part of the Pratt & Whitney site development, NCDOT has started design work on a new interchange on I-26 (**HE-0001**) to access the future industrial site. This interchange would connect to the access road that would connect across the French Broad River to NC 191. The project is currently estimated to cost approximately \$30 million but that cost may change based on several factors to be determined during design, including potential impacts to the Biltmore Estate.

TO BE CLEAR: the proposed amendment to the MTP is only considering the interstate interchange and roadway connection outlined in the map above, not the new bridge over the French Broad River connecting to the Pratt and Whitney facility.

### Project Details

The new interchange at the Pratt & Whitney site would provide a new interchange in the four mile stretch between Exit 37 (NC 146/Long Shoals Road) and Exit 33 (NC 191/Brevard Road), mostly (potentially entirely) on land currently owned by Biltmore Farms.

Several alternatives are currently being considered by NCDOT and the Merger Team for the interchange, but all alternatives include an interstate interchange that would provide a two-lane road accessing development to the west of I-26 and connecting to the access road that would allow travelers to access NC 191, providing more east-west connectivity in the area.

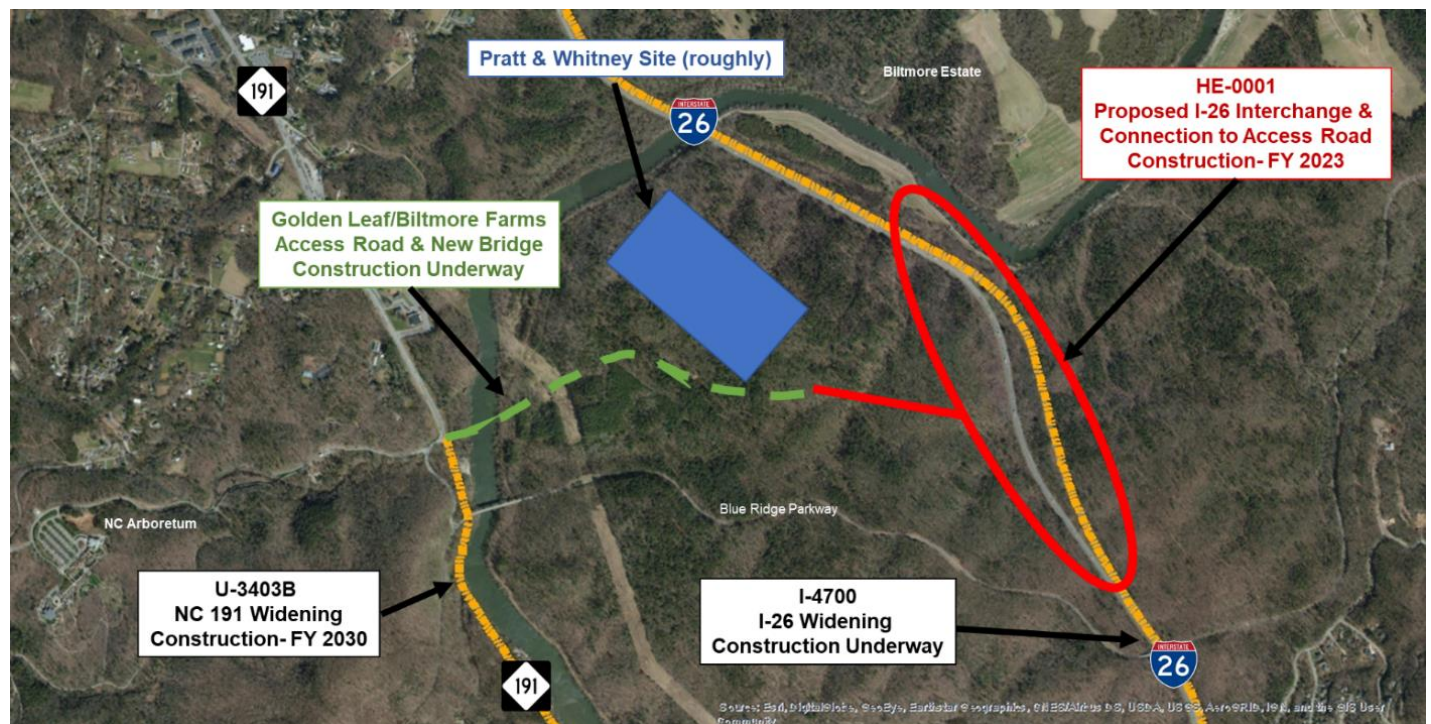

The HE-0001 has an aggressive timetable, with plans to let the project in fall/winter of 2022 and environmental documentation already underway.

### About the Funding

(Updated Since August 2021)

The North Carolina budget was passed in November 2021 and included \$30 million for the interchange project. This funding is coming from Commerce, not Transportation, so the \$30 million should NOT impact existing transportation budgets. As currently estimated, the \$30 million is expected to cover the costs of the project.

However, in addition to the \$30 million allotted in the State budget, the Appalachian Regional Commission (ARC) awarded funding to the project and an application has been submitted to the Economic Development Administration (EDA) for additional funding as well.

Another application was made to USDOT for a RAISE grant. This was discussed at the June 2021 MPO Board meeting. However, this application was NOT successful, and funds were not awarded.

Currently Available Funding for the Project:

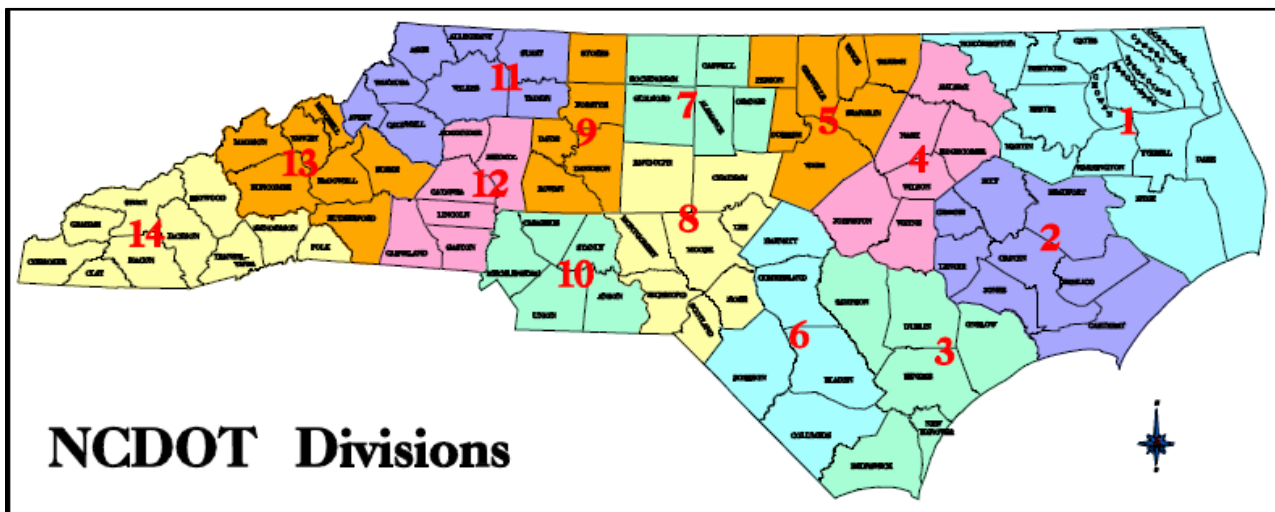

Funding Program	Amount Awarded to HE-0001
North Carolina Budget/Commerce Funds	\$30,000,000
Appalachian Regional Commission (ARC)	\$2,500,000

Should costs increase significantly, NCDOT has the option to utilize an additional \$10,000,000 from the Division Needs “pot” of funds. As noted in previous meetings, this is allowable under the Strategic Transportation Investments (STI) Law but would require the MPO’s approval of a TIP Amendment. At this time, NCDOT believes that the project should be feasible without having to utilize these funds.

For reference, this section of the STI law provides the types of funds that would be accounted for in the Division Needs tier-

*§ 136-189.11.D.4: Projects requested from the Department in support of a time-critical job creation opportunity, when the opportunity would be classified as transformative under the Job Development Investment Grant program established pursuant to G.S. 143B-437.52, provided that the State investment for all projects funded under this sub-sub-subdivision in any five-year period shall not exceed one hundred million dollars (\$100,000,000) in the aggregate and ten million dollars (\$10,000,000) per project. Upon the release of a State Transportation Improvement Program, the Department shall submit a report to the Joint Legislative Transportation Oversight Committee detailing the projects funded under this sub-sub-subdivision.*

To note: utilizing funding from Division Needs may result in schedule changes to other committed projects in Division 13.

**If the MPO votes in favor of adding the project to the MTP:**

-the project will proceed with environmental documentation, and eventually construction

**If the MPO votes against adding the project to the MTP:**

-the project cannot receive the final approvals necessary from FHWA to receive an interchange permit, making the project unable to proceed

Tristan Winkler shared that the proposed interchange would be a big change for our area. He spoke to the uniqueness of this project and to how unusual the process was to have gotten the project to this point. Tristan

shared that although maybe not ideal, it is not without benefits to the transportation network and the Regional Transportation System. Some transportation merits include a relief valve between Exit 33 and Exit 37, better emergency access to the site and the greater area, and that it may help relieve congestion by avoiding some reliance on NC-191.

Discussion occurred regarding project funding and the impact potential cost increases would have on Division 13. MPO Staff shared that should costs increase significantly, NCDOT may use up to \$10,000,00 from the Division Needs “pot” of funds. Utilizing these funds may result in schedule changes to other committed projects in Division 13. NCDOT believes that the project should be feasible without having to access these funds. Neither Pratt & Whitney nor Biltmore Farms are currently planning to provide funding for the interchange.

It was decided by the TCC in June 2021 not to make a recommendation to the TAC(Board) to amend the MTP with the proposed I-26 Interchange.

**Information only. No action required.**

#### 5310 Project Selection

Section 5310 (Enhanced Mobility for Seniors and Individuals with Disabilities) funds are allocated to the Asheville Urbanized Area, with the City of Asheville serving as the designated recipient for these funds. The application process for Section 5310 ran from September 27, 2021, through November 19, 2021. Additional information about Section 5310 is available at: <http://frenchbroadrivermpo.org/5310-and-jarc/>.

The 5310 Grant has two categories for funding:

- Traditional/Capital projects: at least 55% of the total funding amount has to go to “traditional” projects.
- Other/Operations projects: no more than 45% of the total funding amount can go to these projects

<b>FY2021 5310 Available Funding</b>	\$ 354,278	55% of Funds (Traditional)*	\$ 194,853
<b>Admin</b>	\$ 35,428	35% of Funds (Other)*	\$ 123,997
<b>After 10% Admin</b>	\$ 318,850	*Note: percentage divisions are calculated before 10% admin	

<b>ARPA 5310**</b>	\$60,154
<b>10% Admin</b>	\$6,015
<b>ARPA After Admin</b>	\$54,139

\*\*Note that ARPA funds are only available for operations (other) projects.

In December’s Prioritization Subcommittee meeting, MPO staff presented the various projects that had been submitted for funding and potential alternatives for funding 5310 programs. The Subcommittee moved to vote on updated alternatives in the January meeting after recommending that one project (Recovery to Career) apply for JARC funding instead of 5310 funding to maximize the amount of funding that would be able to support Traditional 5310 projects.

In the process of updating alternatives, MPO Staff noted that with the Recovery to Work program being submitted through JARC, there would be an additional \$9,516 in 5310 ARPA funding unprogrammed. Staff reached out to the two other applicants (Madison County and the Council on Aging). The Council on Aging was interested in and able to apply for the remaining ARPA funds.

#### **Funding Breakdown for Alternatives**

<b>FY2021 5310 Available Funding</b>	\$354,278	100% of Funds (Traditional)*	\$318,850
--------------------------------------	-----------	------------------------------	-----------

Admin	\$35,428	0% Funds (Other)*	\$---
After 10% Admin	\$318,850		
ARPA 5310	\$60,154		
Admin	\$6,015		
ARPA 5310 after Admin	\$54,139		

The table below shows the submitted projects and their scores after receiving Subcommittee members' completed scorecards.

Applicant	Traditional or Other	Project Title	Impact	Funding Requested	Local Match	Total Cost	Project Needs & Goals (35)	Project Budget & Operational Preparedness (25)	Project Implementation (25)	Equity, Outreach, & Partnerships (15)	BONUS (5)	Total Score (out of 100)
City of Asheville	Traditional	Asheville Paratransit	34,396	\$ 210,000	\$ 52,500	\$ 262,500	33	11	24	15	4	<b>87</b>
Buncombe County	Traditional	SEDAP	54,087	\$ 128,544	\$ 32,136	\$ 160,680	35	20	25	15	4	<b>98</b>
Council on Aging	Other	Call A-Ride	100	\$ 30,432	\$ 30,432	\$ 60,864	35	5	25	15	0	<b>80</b>
Madison County	Other	Expanded Transportation	3000	\$ 23,707	\$ 23,707	\$ 47,415	35	15	23	12	0	<b>78</b>

### **Prioritization Subcommittee Recommendations for Funding**

The Prioritization Subcommittee members' scores for submitted projects were combined and averaged before the Subcommittee made a recommendation for funding. Prioritization recommended the TCC support Alternative 2B.

#### **Alternative 2B:**

Fund Madison County and Call-A-Ride projects using ARPA funding. Use all of 5310 funds for Traditional Projects. Fund highest scoring Traditional Project fully (Buncombe County SEDTAP) and fund second highest scoring project with remainder of funding available (City of Asheville Paratransit).

#### **Alternative 2B**

Project	Funding Recommendation	Funding Requested	Percentage of Request Funded	Funds Used
Asheville Paratransit	<b>\$190,306</b>	\$210,000	<b>91%</b>	5310 Traditional
Buncombe SEDTAP	<b>\$128,544</b>	\$128,544	<b>100%</b>	5310 Traditional
Call-A-Ride	\$30,432	\$30,432	100%	ARPA 5310
Madison County	\$23,707	\$23,707	100%	ARPA 5310

***Jessica Morriss moved to recommend that the Board approve the Prioritization Subcommittee's recommendation for funding for the 5310 Project (Alternative 2B). Elizabeth Teague seconded the motion, which carried upon a roll call vote, and without further discussion.***

### Job Access Reverse Commute (JARC) Project Selection

JARC (Jobs Access Reverse Commute) is a competitive pot of funds set aside from Section 5307 Urban Transit Formula funds to encourage regional connectivity, *to fund the development and maintenance of transportation services designed to transport welfare recipients and eligible low-income individuals to and from jobs and activities related to their employment.* The FBRMPO holds a call for projects for federal funding, and the City of Asheville is the Designated Recipient for these funds. The application process for JARC (Fall 2021) ran from September 27<sup>th</sup> to November 19<sup>th</sup>, 2021. Additional information about the program is available at: <http://frenchbroadrivermpo.org/5310-and-jarc/>.

FBRMPO Fall 2021 JARC Call for Projects	
<b>Regional JARC using FY2021 at 10% of FTA Section 5307 allocation to the Asheville UZA</b>	<b>\$343,962</b>

The MPO received two applications for JARC during the Fall 2021 Call for Projects. The City of Asheville applied for funding for Route 170 Transit Operations and Friends of Land of Sky applied for their Recovery to Career project.

Applicant	Project Title	Project Description	Funding Requested
City of Asheville	Route 170 Transit Operations	Fixed route service for route 170 to Black Mountain (8 trips per day, Monday through Saturday from 5:30am to 9:30pm)	\$231,558
Friends of Land of Sky*	Recovery to Career	Provide vanpool service to recovering addicts from halfway houses/sober living homes in Asheville to manufacturing jobs in Canton/Fletcher.	\$30,000

\*Note: originally this project was submitted for 5310 funding; however, it was re-submitted as JARC at the request of the Prioritization Subcommittee and aligns with the purpose of the JARC program.

The Prioritization Subcommittee recommended both projects be fully funded.

Even after funding both projects, there was still a large sum of funding that was unable to be programmed (\$82,404). The Prioritization Subcommittee asked that options on how to address those funds be presented to the Regional Transit Operators Group and that the group provide a recommendation for the Subcommittee to discuss at their next meeting.

Tristan Winkler shared that this will be the first public vanpool in our area for more than a decade and he gave a shout out to Philip Cooper and Hannah Bagli with Land of Sky Regional Council for their hard work on this project.

***Jessica Morriss moved to recommend the Board approve to fully fund both the Route 170 Transit Operations and the Recovery to Career projects. Elizabeth Teague seconded the motion, which carried upon a roll call vote, and without further discussion.***

## Safety Performance Targets

### Background

The Federal Highway Administration (FHWA) established five highway safety performance measures in 2016 with regulations set forth in the Federal MAP-21 and FAST Act transportation funding bills. These performance measures are:

- 1.Number of fatalities;
- 2.Rate of fatalities per 100 million vehicle miles traveled;
- 3.Number of serious injuries;
- 4.Rate of serious injuries per 100 million vehicle miles traveled; and
- 5.Number of combined non-motorized fatalities and non-motorized serious injuries.

These targets are established annually, are based on 5 year rolling averages, and are for calendar years. North Carolina state targets are set in agreement with our Strategic Highway Safety Plan (SHSP) (<https://spatial.vhb.com/ncdotshsp/>) goals.

FHWA guidance allows each MPO to establish safety performance targets by either agreeing to plan and program projects so that they contribute toward the accomplishments of the State DOT performance targets or committing to quantifiable HSIP targets for their specific MPO area. If an MPO establishes its own targets, it will need to do so in coordination with the State per FHWA guidelines. MPOs are not directly assessed by FHWA on their progress towards meeting safety performance targets. MPOs must establish safety performance targets no later than February 27 of each year per FHWA guidance. Please transmit a signed adoption resolution indicating the establishment of safety targets for your MPO or supporting the state's targets.

The goal of the most recent (2019) SHSP is to reduce fatalities and serious injuries by half by 2035, moving towards zero by 2050. North Carolina Safety Performance Target Achievement Determination In early 2021, FHWA completed an assessment of target achievement for NCDOT's calendar year (CY) 2019 safety targets, based on the 5-year averages for 2015-2019 for each measure. As per 23 CFR 490.211(c)(2), a State Department of Transportation (DOT) has met or made significant progress towards meeting its safety performance targets when at least four of the safety performance targets established under 23 CFR 490.209(a) have been met or the actual outcome is better than the baseline performance. **Based on FHWA's review, North Carolina has not met or made significant progress toward achieving its safety performance targets.**

As a result, NCDOT must ensure that all HSIP safety funds are obligated and must develop an HSIP Implementation Plan that describes actions the State will take to meet or make significant progress toward achieving its targets. Table 1 below provides a summary of the target achievement determination at the state level. Note that these CY 2019 targets were based off the goal outlined in the 2014 SHSP to reduce fatalities and serious injuries by half by 20

*Table 1: North Carolina Safety Performance Target Achievement Determination Summary for CY 2019*

Performance Measures	5-year Rolling Averages			Target Achieved?	(Actual) Better than Baseline?	Met or Made Significant Progress?
	Target	Actual	Baseline			
	2015 - 2019	2015 - 2019	2013 - 2017			
Fatalities (5 Year Average)	1,214.7	1,410.0	1,363.0	No	No	No
Fatality Rate (5 Year Average)	1.097	1.192	1.214	No	Yes	
Serious Injuries (5 Year Average)	2,490.6	4,078.4	2,860.8	No	No	
Serious Injury Rate (5 Year Average)	2.228	3.422	2.522	No	No	
Non-motorized Fatalities and Serious Injuries (5 Year Average)	403.7	515.6	436.2	No	No	

Table 2 below shows what this determination would look like if the state's methodology for establishing the CY 2019 goal (reducing fatalities and serious injuries by half by 2030) was applied to crash data specific to French Broad River MPO.

*Table 2: French Broad River MPO Safety Performance Target Achievement Determination Summary for CY 2019*

Performance Measures	5-year Rolling Averages			Target Achieved?	(Actual) Better than Baseline?	Met or Made Significant Progress?
	Target	Actual	Baseline			
	2015 - 2019	2015 - 2019	2013 - 2017			
<b>Fatalities (5 Year Average)</b>	44.8	51.0	50.0	No	No	No
<b>Fatality Rate (5 Year Average)</b>	0.952	1.029	1.052	No	Yes	
<b>Serious Injuries (5 Year Average)</b>	78.4	116.8	84.4	No	No	
<b>Serious Injury Rate (5 Year Average)</b>	1.646	2.327	1.751	No	No	
<b>Non-motorized Fatalities and Serious Injuries (5 Year Average)</b>	13.7	17.6	15.2	No	No	

### 2022 State Safety Performance Targets

2022 state safety performance targets were submitted to FHWA on August 31st, as required, with the submission of the annual Highway Safety Improvement Program (HSIP) report. These targets reflect the 2019 SHSP goal to reduce fatalities and serious injuries by half by 2035, moving towards zero by 2050.

The table below provides crash data specific to the FBRMPO and shows what the safety performance targets would look like if you applied the state's methodology (reducing fatalities and serious injuries by half by 2035). More detailed information specific to your MPO can be found at the following link:

[https://connect.ncdot.gov/resources/safety/Documents/Crash%20Data%20and%20Information/NC\\_PerformanceMeasuresData\\_2022Targets\\_FrenchBroadMPO.pdf](https://connect.ncdot.gov/resources/safety/Documents/Crash%20Data%20and%20Information/NC_PerformanceMeasuresData_2022Targets_FrenchBroadMPO.pdf)

*Table 4: French Broad River MPO Specific Safety Performance Targets*

Year	Fatalities (5 Year Average)	Fatality Rate (5 Year Average)	Serious Injuries (5 Year Average)	Serious Injury Rate (5 Year Average)	Non-motorized Fatalities and Serious Injuries (5 Year Average)
2008 - 2012	44.0	1.000	113.4	2.578	16.4
2009 - 2013	45.0	1.012	101.6	2.289	15.6
2010 - 2014	46.8	1.042	89.6	2.003	15.6
2011 - 2015	46.8	1.030	81.8	1.809	15.6
2012 - 2016	46.0	0.993	74.0	1.599	16.0
2013 - 2017	50.0	1.052	84.4	1.751	15.2
2014 - 2018	52.2	1.076	102.0	2.067	17.2
2015 - 2019	51.0	1.029	116.8	2.327	17.6
2016 - 2020	49.4	0.999	128.0	2.584	18.6
<b>2022 Target</b>	<b>45.4</b>	<b>0.912</b>	<b>108.3</b>	<b>2.151</b>	<b>15.7</b>

Discussion occurred regarding the need for more information from NCDOT on how safety funds are used and how those funds are allocated to Division 13 and Division 14. Tristan Winkler stated that a presentation from NCDOT on the funding will be scheduled for next month's meeting.

**Elizabeth Teague moved to recommend the Board approve NCDOT's 2022 Safety Performance Targets, with the stipulation that the Committee be presented with additional information on how NCDOT's safety funds are being used. Matt Cable seconded, and the motion carried upon a roll call vote, and without further discussion.**

#### Amendments to the 2020-2029 Transportation Improvement Program (TIP)

##### About the Program

The Transportation Improvement Program (TIP) is our region's document that reflects planned transportation investments over a ten-year period and is required to be in conformity with North Carolina's State Transportation Improvement Program (STIP). The TIP describes each project, a schedule for implementation, funding sources, and estimated costs.

##### Amendments Overview

This round includes amendment delays allowing for additional time for right-of-way and construction, add delays for planning and design and construction, delays for additional time for preliminary engineering, delay construction, add utilities not previously programed, cost increases in excess of \$2 million (\$2,000,000) threshold. In addition, there are amendments to expedite pavement reconstruction and/or to let projects under one contract., accelerate construction schedules. No new projects are being added to the TIP:

These amendments are currently posted for public review and comment on the [TIP page](#) of the MPO website.

**Jodie Ferguson moved to recommend Board approval of the Amendments to the 2020-2029 Transportation Improvement Program (TIP). Elizabeth Teague seconded the motion, which carried on a roll call vote, with no further discussion.**

### Draft FY 2023 Unified Planning Work Program (UPWP)

The French Broad River MPO is required to develop a Unified Planning Work Program (UPWP) and present a draft in February with the final version approved in May.

### **What is a UPWP?**

The UPWP is a federally mandated document for MPO's to produce that serves the MPO's budget. This includes line items of work for MPO staff, planning work planned by the region's designated recipient for FTA 5303 Metropolitan Planning Funds (City of Asheville), as well as studies being carried out using federal planning funds, and any programmatic support or planning being funded by FTA 5307 Support.

The Draft UPWP is due on January 28th. The Final UPWP is due at the end of March.

### **Major Changes between the FY 2022 and FY 2023 UPWP**

- More emphasis is being put on data, modeling, and travelers' behavior to reflect anticipated work to build the region's base-year socio-economic dataset for the 2050 MTP. This includes further work on updating the region's land use layer
- More funding is being put towards TIP Development/Prioritization to go along with anticipated work tasks for P 6.0
- Less funding is being put towards Special Study Coordination with the Regional Transit Study and Corridor Studies expected to be completed.
- More emphasis is being put on the release of the 2020 Census, which may impact the MPO's Planning Area boundary
- More funding is being put towards Regional Planning with on-going work for the CTP update, LCP update, MTP work, and potential 5307 suballocation formula considerations

The Draft FY 2023 UPWP was included in the meeting packet and is posted on the MPO's website:

[https://frenchbroadrivermpo.org/wp-content/uploads/2022/01/2022\\_01\\_13\\_TCC-Agenda-Packet-Updated.pdf](https://frenchbroadrivermpo.org/wp-content/uploads/2022/01/2022_01_13_TCC-Agenda-Packet-Updated.pdf)

**Jodi Ferguson moved to recommend the Board approve the Draft FY 2023 Unified Planning Work Program (UPWP), as presented. Elizabeth Teague seconded the motion which carried upon a roll call vote, and without further discussion.**

## **REGULAR UPDATES AND INFORMATION ITEMS**

- Updates for both Division 13 and Division 14 are available on the website:  
[http://frenchbroadrivermpo.org/wp-content/uploads/2022/01/Division13\\_December-2021-Updates.pdf](http://frenchbroadrivermpo.org/wp-content/uploads/2022/01/Division13_December-2021-Updates.pdf)  
and <http://frenchbroadrivermpo.org/wp-content/uploads/2022/01/Div14Jan2022.pdf>
- Transportation Planning Division and FHWA/FTA updates were presented.
- Legislative updates were provided by MPO staff.
- FBRMPO Committee & Workgroup Updates:
  - Prioritization Subcommittee Workgroup – met January 5<sup>th</sup>, next meeting February 2<sup>nd</sup>
