WELCOME, INTRODUCTIONS & ROLL CALL

Anthony Sutton called the meeting to order at 1:01PM and welcomed everyone. He read the Ethics Statement and inquired if there were any conflicts of interest to note for today's meeting. No conflicts were noted with the business before the body.

Quorum was announced to conduct the business of the Board.

PUBLIC COMMENT

Anthony Sutton opened the floor for public comment. Ash Lounsbury, City of Asheville resident, commented on Item 4D of the meeting agenda (Amendments to the 2020-2029 Transportation Improvement Program (TIP).

CONSENT AGENDA

Maggie Ullman moved to approve the May 2023 TAC agenda. Anne Coletta seconded the motion which passed unanimously upon a roll call vote.

Jennifer Hensley moved to approve the consent agenda, including the March 2023 meeting minutes. Shanon Gonce seconded the motion which passed upon a roll call vote.

BUSINESS

Modifications to 5310 Programming

The City of Asheville's FY2022 allocation of 5310 funding is proposed to increase from \$210,000 to \$223,471, a \$13,471 increase.

This funding increase reflects corrections to funding amounts listed at the January 19, 2023 MPO Board meeting (shown below), as MPO staff noted shortly afterward that Buncombe County's \$57,720 and City of Asheville's \$210,000 (\$267,720 total) was only 52% of total 5310 funds; FTA rules require a minimum of 55% of total funds allocated to Traditional Projects:

		Buncombe County RIDE (Other)	Buncombe County SEDTAP (Trad)	City of Asheville Paratransit (Trad)	LOSRC Senior Companions (Other)	Madison County Transportation Authority (Other)
	Score (out of 100 points)	90	95	95	83	85
1/10/23 Alt. - City of Asheville forgoes 10% Admin. set-aside (gets 6% instead); all projects 100% funded	Requested Amount	\$42,482	\$57,720	\$210,000	\$136,620	\$33,414
	Funded Amount	\$42,482	\$57,720	\$210,000	\$136,620	\$33,414
	Funded Amount, Percent of Total Funding Available	18.47%	20.53%	74.68%	59.38%	14.52%

MPO Staff communicated this funding change to City of Asheville staff and the following funding changes are proposed:

- The City of Asheville's 5310 (Traditional) funding will increase from \$210,000 to \$223,471.
- The City of Asheville will receive the 5310 fund balance, \$17,550, for administrative costs. **NOTE:** The City of Asheville has previously received 10% of 5310 funds for administrative costs, but will receive 3% of 5310 funds in this cycle.
- Funding levels for all other entities remain the same.

The table below summarizes currently proposed funding levels.

	Funded Amount, Percent of Total Funding Available	18.47%	20.53%	79.47%	59.38%	14.52%

Scott Adams presented.

Kim Roney moved to approve funding the 5310 projects at their requested funding levels and allocate the remaining 5310 funds to the City of Asheville for administration of 5310 funds to subrecipients. Catherine Cordell seconded, and the motion passed unanimously upon a roll call vote.

Modifications to JARC Programming

The City of Asheville's FY2022 allocation of 5307/JARC funding is proposed to increase from \$254,270 to \$408,394, a \$153,674 increase.

In recent years, MPO policy has been to allocate 10% of regional 5307 funds (FTA Urbanized Area Formula Grants, \$4,083,938 for Asheville UZA in FY2022) for JARC projects.

The initial \$254,270 of JARC funding will fund Asheville Rides Transit (ART) Bus Route 170, which provides service between downtown Asheville and downtown Black Mountain.

The remaining \$153,674 of JARC funding will fund ART Bus Route S3, which provides service between downtown Asheville and the WNC Agricultural Center (adjacent to and serving Asheville Regional Airport). Asheville City Council approved the funding increase at their March 28, 2023 city council meeting.

Scott Adams presented.

Kim Roney moved to approve the updated JARC funding request from the City of Asheville. Catherine Cordell seconded the motion which passed upon a roll call vote.

PM2 & PM3 Performance Targets

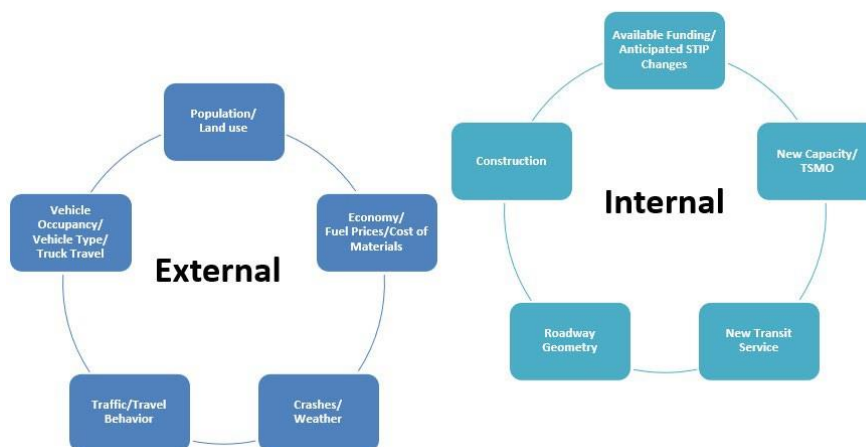

NCDOT reported its 2-year and 4-year statewide targets for the federally required performance measures for pavement condition, bridge condition, travel time reliability, truck freight reliability, and CMAQ on December 15, 2022. The 2-year targets represent performance at the end of calendar year 2023, while the 4-year targets reflect performance at the end of 2025.

NCDOT set these targets taking into account recent performance trends, current and planned STIP projects, and variables that influence the measures in each performance area. The primary considerations taken into account when establishing these targets are:

- The State's economic growth and resulting VMT trends in recent years are **expected to continue over the next several years**.
- Projects and funding levels in the STIP are unlikely to **significantly change performance over the next 2-4 years**.
- Project **costs over the past two years have increased significantly** due to inflation and a great deal of uncertainty remains about costs and economic conditions over next four years.
- Given these factors, the targets maintain a **conservative and balanced stance given the unknowns**. NCDOT will continue to monitor and report performance on a regular basis and has an opportunity to assess performance after 2023 and adjust the 2025 targets if

necessary.

Factors Influencing Performance

What will performance look like in 2023 and 2025?

New travel patterns vs. return to pre-2020 equilibrium

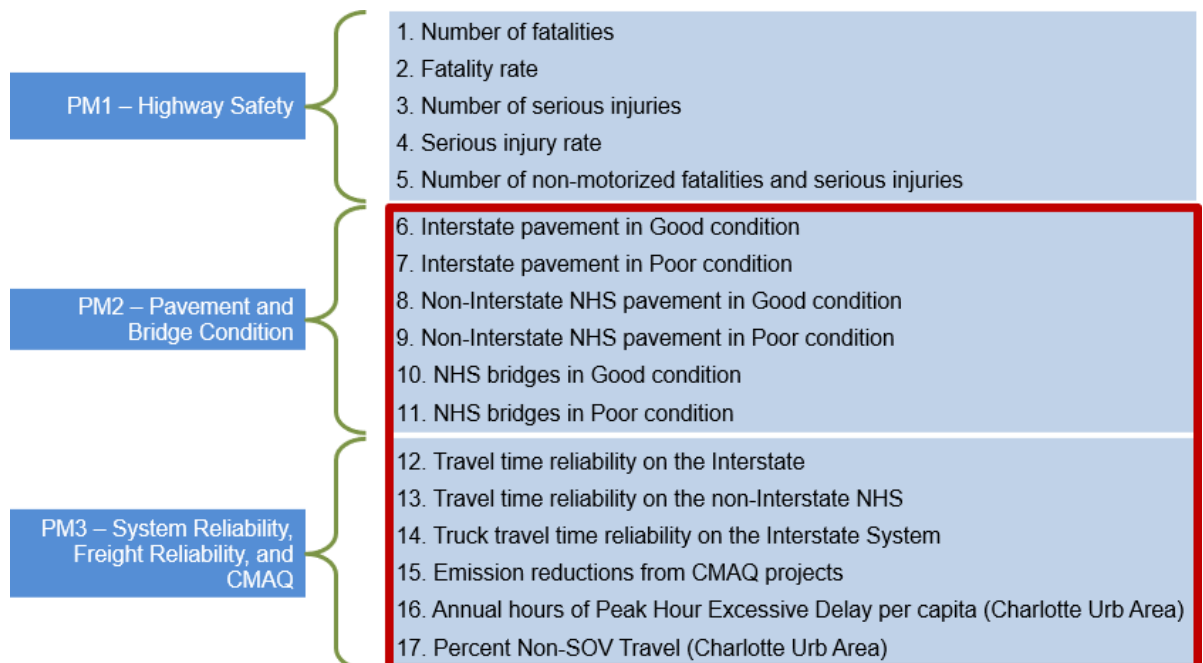

Effects of hybrid and remote work

Changes in carpooling and transit use

Economic conditions and fuel prices

Changes to the STIP due to cost increases

Performance Measures:

NCDOT Draft Statewide Targets:

Pavement Condition:

Performance Measure	2023 Target	2025 Target
Percent of Interstate Pavement in Good Condition	60%	62%
Percent of Interstate Pavement in Poor Condition	1.8%	1.5%
Percent of Non-Interstate NHS Pavement in Good Condition	30%	31%
Percent of Non-Interstate NHS Pavement in Poor Condition	3.5%	3.0%

Bridge Condition:

Performance Measure	2023 Target	2025 Target
Percent of NHS Bridges by Deck Area in Good Condition	38%	36%
Percent of NHS Bridges by Deck Area in Poor Condition	5%	5%

Travel Time Reliability:

Performance Measure	2023 Target	2025 Target
Percent of Person-Miles Traveled on the Interstate that are Reliable	75%	75%
Percent of Person-Miles Traveled on the Non-Interstate NHS that are Reliable	70%	70%
Truck Travel Time Reliability Index	1.70	1.70

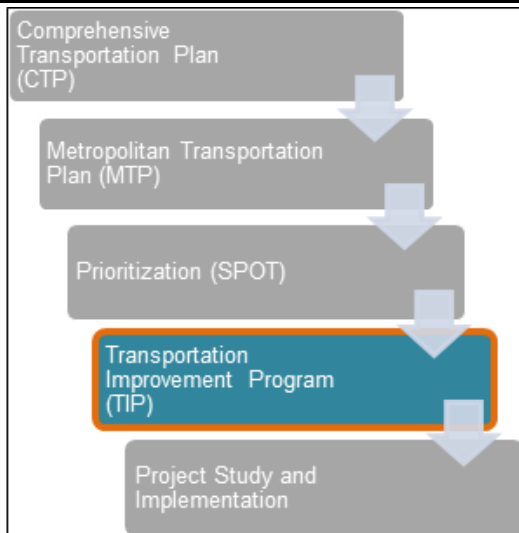

FBRMPO Options:

- Establish Unique Targets Only Applicable to FBRMPO Planning Area
- **Adoption of NCDOT Recommended Statewide Targets (TCC Recommendation)**

Logan DiGiacomo presented.

Jennifer Hensley moved to adopt NCDOT's recommendation for the PM2 & PM3 Performance Targets. Shannon Gonce seconded the motion which passed upon a roll call vote.

Amendments to the 2020-2029 Transportation Improvement Program (TIP)

What is the Transportation Improvement Program (TIP)?

The Transportation Improvement Program (TIP) is our region's document that reflects planned transportation investments over a ten-year period. The TIP describes each project, a schedule for implementation, funding sources, and estimated costs. Current items are for modification of existing projects. No new projects or amendments are included for March, 2023.

Modifications Summary

Modifications to the TIP largely include shifting the funding and/or schedule of several Locally Administered Projects.

This includes, but is not limited to, changes to the Ecusta Trail, Black Mountain Riverwalk Greenway, Woodfin Greenway, and Bent Creek Greenway projects. There are also four Locally Administered Project additions to the TIP: Riceville Road sidewalk improvements, the Swannanoa Greenway project, phase II of the Ecusta Trail project, and the Montreat Texas Road pedestrian bridge project. Beyond Locally Administered Projects, the bridge replacement over 9th street in Black Mountain (HL-0013) is delaying construction from fy 23 to fy 24 to allow additional time for right-of-way acquisition. Finally, the Russ Ave upgrade project (U-5839) is also delaying construction from fy 23 to fy 24 to allow additional time for planning and design.

Logan DiGiacomo presented.

Jennifer Hensley moved for approval of amendments to the 2020-2029 Transportation Improvement Program. Chuck McGrady seconded the motion which passed upon a roll call vote.

Congestion Management Process (CMP) Biennial Report

As a Transportation Management Area (TMA), the French Broad River MPO is required to maintain a Congestion Management Process (CMP) for the region which includes congestion monitoring on a biennial basis. A draft biennial report is included below. A presentation will be provided.

What is a CMP?

“A congestion management process (CMP) is a systematic and regionally- accepted approach for managing congestion that provides accurate, up-to-date information on ***transportation system performance and assesses alternative strategies for congestion*** management that meet State and local needs.”

When was the CMP last updated?

The full CMP was updated in 2018 and is available on the MPO website here:

https://frenchbroadrivermpo.org/wp-content/uploads/2019/08/DraftCMP_2018-1-1.pdf

The **previous** biennial report was completed in 2021 with data focusing on 2019.

Bob Daby moved to accept the Congestion Management Process (CMP) Biennial Report. Amanda Edwards seconded the motion which passed unanimously upon a roll call vote.

Draft 2024-2033 TIP Update

The “final” Draft 2024-2033 TIP is available here: <https://frenchbroadrivermpo.org/tip/>

This includes the swap that was approved by the MPO Board and NCDOT to swap-in the I-26/US 64 Interchange Improvements in place of Kanuga Road Modernization as well as the split of the Sweeten Creek Road widening.

Several other changes were made to project schedules as part of the “final” Draft STIP for projects in the FBRMPO region. That includes a one-year delay for the Liberty Road Interchange in Buncombe County on I-40 as well as a three-year delay for the planned widening of NC 112 (Sand Hill/Sardis Road), also in Buncombe County.

Regional Trail Forum Update

- Regional Trail Forum meeting held on March 15th to continue with the aim of planning for an event in August 2023 with a rain date in September
- We have booked Smoky Park Supper Club for an August 31st event!
- Our theme is Networking Greenways
- ½ day with an optional greenway walk after closing/lunch
- Elected Official Coffee Hour in the morning before the event
- Topics will potentially include
 - Equity
 - Health/Wellness
 - Economic Impacts of Greenways
 - Networking Best Practices
- Bret Baronak from Carolina Thread Trail is the tentative keynote speaker
- Will be getting the group back together in the next few weeks, the doodle should be live!
- We plan on having sessions geared towards staff and interested citizens, mark your calendars!

5307 Subrecipient Workgroup- met on April 4, 2023 Points of Business/Discussion:

- Updated Urbanized Areas (UZAs) from US Census finalized and published January 9, 2023
- Asheville UZA land area shrank from 262 to 250 sq. mi., population increased from 279,201 to 285,495; new UZAs: Waynesville, 24,285 pop.; Canton, 8,812 pop., Brevard, 13,059 pop.

FY 2023 allocations:

- City of Asheville, 42.6%
- Buncombe County, 28.6%
- Haywood County, 8.3%
- Henderson County, 20.4%

- FY 2024 allocations (proposed):
 - City of Asheville, 46.8%
 - Buncombe County, 32.0%
 - Haywood County, n/a
 - Henderson County, 21.2%
- Discussion of 5307 Sub-Recipients allocation formula; MPO staff and Work Group members agreed to the following approach:
 - No new funding formula study at this time in light of Henderson County and Asheville- Buncombe County transit studies underway.
 - Keep the formula the same, albeit with updated FTA National Transit Database (NTD) operational data, but not population data from ESRI Community Analyst; only official US Census population data is the preferred source for population data.
