June 11, 2026 – 11:00 A.M., Hybrid Meeting via Zoom or at Land of Sky Regional Council

Login: <https://us06web.zoom.us/j/81728600079>

Meeting ID: 81728600079

Call-In: 13126266799

Agenda

1. **WELCOME AND HOUSEKEEPING (5 min)**

 - A. Welcome and Introductions William High

2. **PUBLIC COMMENT**

3. **APPROVAL OF AGENDA & CONSENT AGENDA** William High

 - A. April, 2026 TCC Meeting Minutes
 - B. May, 2026 Special Meeting Minutes
 - C. FY 2027 Unified Planning Work Program (UPWP) Amendment #2
 - D. Letter of Support: Hendersonville Safe Streets for All Application
 - E. Letter of Support: Buncombe County EMS Safe Streets for All Application
 - F. Letter of Support- NCDOT BRIC Grant Application
 - G. Amendments to the 2026-2035 Transportation Improvement Program (TIP)

4. **BUSINESS**

 - A. P8: DRAFT Local Input Points for Regional Impact Projects MPO Staff, 20 Min
 - B. HL-0013: Request for Additional Funds MPO Staff, 10 Min
 - C. U-5019A: Request for Additional Funds MPO Staff, 10 Min
 - D. Resolution of Support: Hendersonville Road @ Old Brickyard Road NCDOT Staff, 10 Min
 - E. AAM Grant Application MPO Staff, 10 Min

5. **INFORMATIONAL ITEMS**

6. **REGULAR UPDATES (10-15 min)**

 - A. NCDOT Division 13 and 14 updates Tim Anderson/Wesley Grindstaff or Designee
 - B. Transportation Planning Branch Daniel Sellers
 - C. Subcommittee/Workgroup Reports, Staff Updates, and Housekeeping MPO Staff
 - D. Legislative Updates MPO Staff

7. **ANNOUNCEMENTS, NEWS, SPECIAL UPDATES (5 min)**

8. **TOPICS FOR NEXT MEETING (August 13th)**

9. **PUBLIC COMMENT**

10. **ADJOURNMENT**

Item 3C:

Modification to the FY 2027 Unified Planning Work Program

What is the Unified Planning Work Program (UPWP)?

The Unified Planning Work Program (UPWP) is the French Broad River Metropolitan Planning Organization's annual planning work plan and budget. It describes what transportation planning activities the MPO and its partners will undertake during the fiscal year, how those activities support federal and regional goals, and how federal, state, and local planning funds will be used.

The UPWP is required under federal law to ensure that metropolitan transportation planning activities are:

- Continuing
- Comprehensive
- Cooperative

In practice, the UPWP functions as both:

- a scope of work for MPO staff and planning studies, and
- a financial plan that documents the use of federal planning funds.

No planning activity using federal funds may occur unless it is included in an adopted UPWP.

Proposed Amendments

Following the amendment of the FY 2027 UPWP in April, 2026, the City of Asheville notified the MPO that it did not program the full amount of local match for FTA 5305-2 Area of Persistent Poverty Transit Program Support Fund that were required.

The amendment would fully allocate the local match for 5305-2 funds from \$32,814 to \$36,400 from the City of Asheville.

Action Required: Consider Recommending Adoption of the Amendment to the FY 2027 UPWP

Item 3D:

Letter of Support- Hendersonville Safe Street for All Application

The City of Hendersonville submitted a grant application for the USDOT Safe Streets for All Program to improve roadway safety in the City of Hendersonville. The City requested a letter of support from the MPO. The following was provided.

Informational Item

a program of Land of Sky

FRENCH BROAD RIVER

METROPOLITAN PLANNING ORGANIZATION

The Honorable Sean Duffy
Secretary
U.S. Department of Transportation
1200 New Jersey Avenue, SE
Washington, D.C. 20590

RE: FY2026 Safe Streets and Roads for All (SS4A) Grant Application – Safe Streets for Hendersonville: 7th Avenue Safety Implementation

Dear Secretary Duffy:

On behalf of the French Broad River Metropolitan Planning Organization (FBRMPO), I am writing to express our strong support for the City of Hendersonville’s FY2026 Safe Streets and Roads for All (SS4A) grant application for the “Safe Streets for Hendersonville: 7th Avenue Safety Implementation” project.

This project represents a collaborative effort between the City of Hendersonville, the French Broad River MPO, and the North Carolina Department of Transportation to improve safety, accessibility, resilience, and economic vitality along one of Hendersonville’s most important historic corridors.

The proposed improvements along 7th Avenue will create a safer and more comfortable transportation environment for all roadway users while maintaining the corridor’s critical role in the local transportation network. The project will support safer travel for drivers, pedestrians, bicyclists, families, older adults, and visitors while strengthening connections between downtown Hendersonville, nearby neighborhoods, and major regional trail facilities.

In addition to its transportation benefits, the project will support broader community and economic goals by:

- Improving roadway safety and reducing the potential for serious crashes,
- Enhancing quality of life and accessibility for residents and visitors,
- Supporting local businesses, tourism, and economic development opportunities,
- Improving multimodal connectivity while maintaining vehicular access and mobility, and

a program of Land of Sky

FRENCH BROAD RIVER

METROPOLITAN PLANNING ORGANIZATION

- Incorporating infrastructure improvements that increase resilience to flooding and extreme weather events.

The FBRMPO strongly believes this project reflects the goals of the SS4A program and demonstrates how transportation investments can improve safety while supporting economic opportunity and community development in small and mid-sized communities.

Thank you for your consideration of this important application and for your continued support of safer transportation systems across the nation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Tristan Winkler', written in a cursive style.

Tristan Winkler
Director
French Broad River Metropolitan Planning Organization

Item 3E:

Letter of Support- Buncombe County EMS Safe Streets for All Application

Buncombe County EMS submitted a grant application for the USDOT Safe Streets for All Program to provide a faster delivery of whole blood to people severely injured in crashes. The County requested a letter of support from the MPO. The following was provided.

Informational Item

a program of Land of Sky

FRENCH BROAD RIVER

METROPOLITAN PLANNING ORGANIZATION

To Whom It May Concern:

The French Broad River Metropolitan Planning Organization (FBRMPO) is pleased to support Buncombe County Emergency Medical Services' application to the USDOT Safe Streets and Roads for All (SS4A) Supplemental Planning and Demonstration Grant Program.

The proposed Regional Roadway Survivability Framework directly aligns with the goals and findings of the adopted Safe Streets for WNC (SSWNC) Safety Action Plan, completed jointly by the FBRMPO and Land of Sky RPO in 2025. The SSWNC Plan identified roadway fatalities and serious injuries as a growing regional crisis and specifically noted that post-crash care has historically received limited attention in transportation safety planning. The plan also emphasized the importance of integrating safety considerations into changing regional conditions, disaster recovery, and future transportation system risks.

The Buncombe County EMS proposal thoughtfully builds upon that framework by evaluating innovative strategies intended to improve post-crash survivability, responder safety, and emergency access reliability within Western North Carolina's unique transportation environment. Our region has unique challenges caused- in part- by our Appalachian topography. Growth has been centered around a few roadway corridors with very limited redundancy, making access more difficult and additional hazards more likely. The proposal's focus on mountainous terrain, severe weather disruptions, congestion, roadway incidents, and emergency response challenges is consistent with conditions identified throughout the regional safety planning process.

FBRMPO particularly appreciates the proposal's multidisciplinary approach and its commitment to measurable evaluation, data integration, and coordination with the regional Safety Action Plan. The proposed demonstration activities — including advanced post-crash clinical stabilization strategies, operational response analysis, and responder roadway safety improvements — represent an opportunity to further strengthen the region's understanding of post-crash care within the Safe System Approach.

Importantly, this effort complements rather than replaces the existing SSWNC framework. Findings and recommendations generated through this work have the potential to inform

a program of Land of Sky

FRENCH BROAD RIVER

METROPOLITAN PLANNING ORGANIZATION

future updates to the regional Safety Action Plan and support more comprehensive transportation safety strategies across Western North Carolina.

FBRMPO looks forward to continued coordination with Buncombe County EMS and regional partners throughout the development and evaluation of this effort.

Sincerely,

Tristan Winkler

Director

French Broad River Metropolitan Planning Organization

Staff Report & Recommendations

Item 3F:

Letter of Support- NCDOT BRIC Application

NCDOT Division 13 applied for a FEMA BRIC Application to improve drainage near Beacon Park. The following letter of support was provided.

Informational Item

a program of Land of Sky

FRENCH BROAD RIVER

METROPOLITAN PLANNING ORGANIZATION

To Whom It May Concern:

On behalf of the French Broad River Metropolitan Planning Organization, I am pleased to provide this letter of support for Buncombe County and NCDOT's proposed Beacon Village Drainage Improvements project in Swannanoa, North Carolina, for consideration under FEMA's Building Resilient Infrastructure and Communities program.

Beacon Village is a historic residential community in the Swannanoa area with origins as an early twentieth-century mill village. Many of the homes and roadways in the area were constructed before modern drainage and resilience standards were in place. As a result, the community has experienced repeated roadway and property flooding, particularly along Edwards Avenue, where inadequate drainage has created recurring maintenance, access, and safety concerns.

Those long-standing issues were made more urgent by Hurricane Helene in September 2024, which caused extreme flooding across the Swannanoa area and resulted in significant impacts to the Beacon Village community. The proposed project would address documented drainage deficiencies along Richmond Avenue, Edwards Avenue, and associated drainage outlets toward US 70, helping reduce future flood risk for residents, road users, and public agencies responsible for maintaining the transportation system.

From the MPO's perspective, this project is strongly aligned with regional transportation resilience and hazard mitigation priorities. Improving drainage in Beacon Village would help maintain safer and more reliable access during heavy rain events, reduce recurring roadway flooding, support emergency response and neighborhood mobility, and lower the likelihood of repeated public expenditures for response, repair, and maintenance. The project would also help protect a modest-income residential community that has already experienced substantial storm impacts.

The French Broad River MPO has placed increased emphasis on transportation system resilience following Hurricane Helene, particularly where known infrastructure vulnerabilities affect community access, safety, and long-term recovery. The Beacon Village Drainage Improvements project represents a practical, targeted investment that would reduce future risk, improve roadway reliability, and strengthen the resilience of an established Swannanoa neighborhood.

a program of Land of Sky

FRENCH BROAD RIVER

METROPOLITAN PLANNING ORGANIZATION

For these reasons, the French Broad River MPO supports the Beacon Village Drainage Improvements project and encourages its consideration for FEMA BRIC funding.

Sincerely,

A handwritten signature in black ink, appearing to read "Tristan Winkler". The signature is fluid and cursive, with the first name being more prominent.

Item 3G:

Amendments to the 2026-2035 Transportation Improvement Program

What is the Transportation Improvement Program (TIP)?

The Transportation Improvement Program (TIP) is our region's document that reflects planned transportation investments over a ten-year period. The TIP describes each project, a schedule for implementation, funding sources, and estimated costs.

Amendment Highlights:

Amendments this month include:

- Add additional Federal and Local funding to HL-0013 (9th Street Bridge Replacement)
- Add additional Federal and Local funding to U-5019A (Nasty Branch Greenway)
- Various pedestrian signal installation and improvements in Divisions 13 (Including Patton Ave at Louisiana Rd in Asheville, Flat Creek Rd at Village Way Intersections in Black Mountain, and US 70 Tunnel Rd at White Pine Dr)

- EB-5963 – Grove Street Sidewalks in Hendersonville: delay construction from FY25 to FY27, bringing the project into the federally approved STIP.

All TIP Amendment Summaries can be found here: https://frenchbroadrivermpo.org/wp-content/uploads/2026/06/FBRMPO_June2026_TIPAmendments_Updated.pdf

Action Required: Consider Recommending Adoption of the Amendments to the 2026-2035 TIP.

Staff Recommendation: Recommend Approval of the Amendments to the 2026-2035 TIP.

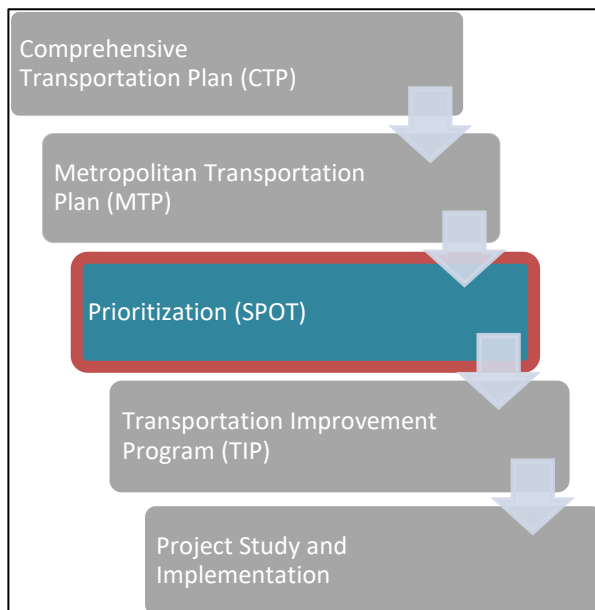

Staff Report & Recommendations

Item 4A:

P8- Regional Impact Local Input Points

Background

The Prioritization Process (AKA SPOT, AKA P 8) is the process in North Carolina that helps determine the majority of transportation improvements across the State. The process is dictated by the [Strategic Transportation Investments Act \(STI\) of 2012](#) and is generally designed to be a data-driven, transparent process to determine what transportation projects are funded or not. MPOs are engaged throughout the process to submit projects for consideration (along with Divisions and RPOs) as well as local input points that are used to boost the scores of projects competing for Regional Impact or Division Needs funding.

Action Items for Today

- Review Outcomes of Statewide Mobility and Regional Impact scores
- Discuss DRAFT local input points for Regional Impact projects

FRENCH BROAD RIVER

METROPOLITAN PLANNING ORGANIZATION

Staff Report & Recommendations

Statewide Mobility Projects

Statewide Mobility projects are programmed solely based on the quantitative score. Only one project in the region scored well enough for programming with available funding in P8- the I-40 Managed Lanes project from Exit 44 to Exit 27. The scores for all Statewide Mobility projects in the MPO are available below.

Route / Facility / Project Name	From / Cross Street / Location	To / Cross Street	Description	Specific Improvement Type	Cost to NCDOT	Statewide Mobility Quantitative Score (Out of 100)
I-40	Exit 44 (Smokey Park Highway)	Exit 27 (US 23/74)	Construct managed lanes. [TOLL PROJECT]	1 - Widen Existing Roadway	\$ 513,200,000	88.47
I-26	US 25	US 64 (Four Seasons Boulevard)	Add Additional Lanes.	1 - Widen Existing Roadway	\$ 220,100,000	68.70
I-26, I-240	I-26/I-40/I-240 final interchange improvements	N/A	Construct Final Interchange Improvements	8 - Improve Interchange	\$ 358,200,000	60.36
I-26	US 64	N/A	Construct interchange improvements	8 - Improve Interchange	\$ 121,200,000	59.13
US 19 (Patton Avenue)	US 19 (Patton Avenue) / US 23 / US 74 ALT and NC 63 (New Leicester Highway)	N/A	Construct final intersection improvements.	10 - Improve Intersection	\$ 43,800,000	58.47
I-26, US 23, US 19	NC 251/SR 1781 (Broadway Street)	US 25/US 70/SR 1725 (Weaver Boulevard)	Widen roadway to 6 and 8 lanes.	1 - Widen Existing Roadway	\$ 602,700,000	57.33
I-26, US 19, US 23	US 25 (Merrimon Avenue)	N/A	Improve interchange	8 - Improve Interchange	\$ 138,300,000	55.31

Local Input Points

The MPO is currently holding local priority meetings. This section will be updated with information as that information is developed.

Next Steps

After the MPO Board approves the Draft Local Input Point Assignment, it will go out for public comment. The final assignment will come back through the TCC and Board in August.

Action Required: Recommend DRAFT Regional Impact Local Input Point Assignment to the MPO Board

Staff Report & Recommendations

Item 4B:

HL-0013: Request for Additional Funds

Background

The MPO currently receives roughly \$6.5 million per year in a direct allotment of federal funds that it programs for both planning and capital expenditures in the region. These funds come from three federal programs:

- Surface Transportation Block Grant Program (STBG)
- Transportation Alternatives Program (TAP)
- Carbon Reduction Program (CRP)

In past years, the MPO has combined these allotments into one Locally Administered Projects Program and programmed funds to different projects, largely sponsored by local governments, with some sponsored by NCDOT.

Project Information

Project: HL-0013

Description: 9th Avenue Bridge Replacement

Sponsor: Town of Black Mountain

The MPO awarded \$365,000 in federal funds to the Town of Black Mountain in 2020 to replace a local bridge that had received a poor structural review. That amount was increased to \$800,000 in 2021 based on updated estimates from NCDOT.

The project recently went to bid for construction, and the bids came back at more than \$1.9 million, including NCDOT oversight fees. The Town of Black Mountain is requesting additional federal funds to allow the project to move forward.

Previously Awarded Federal Construction Funds	Total Request for Federal Construction Funds	Change in Federal Funds
\$800,000	\$1,566,110	\$766,110

Staff Report & Recommendations

Impact on MPO Funding

MPO staff coordinated with NCDOT staff to review available funding through FY 2030. The total amount of funds expected to be available is \$17,493,000, after the additional funds already programmed to the Clear Creek Greenway.

If additional funding is awarded to HL-0013, the future balance of available MPO funds would be reduced by \$766,110.

All funding assumptions are based on current federal allotments and are subject to change if a new federal transportation law is adopted.

Staff & Prioritization Subcommittee Recommendation

Recommend a TIP modification for additional federal funds for HL-0013 in the amount of \$766,110 as well as the required local match.

Action Required: Consider a Recommendation to the MPO Board regarding the proposed TIP Modification

Item 4C:

HL-0013: Request for Additional Funds

Background

The MPO currently receives roughly \$6.5 million per year in a direct allotment of federal funds that it programs for both planning and capital expenditures in the region. These funds come from three federal programs:

- Surface Transportation Block Grant Program (STBG)
- Transportation Alternatives Program (TAP)
- Carbon Reduction Program (CRP)

In past years, the MPO has combined these allotments into one Locally Administered Projects Program and programmed funds to different projects, largely sponsored by local governments, with some sponsored by NCDOT.

Project Information

Project: U-5019A

Description: Nasty Branch Greenway from the Dr. Wesley Grant Southside Center to Phifer Street

Sponsor: City of Asheville

The Nasty Branch Greenway, formerly known as the Town Branch Greenway, was originally part of the RADTIP project, which was funded through the USDOT TIGER program. When costs for the larger project increased, this section was removed from the rest of the TIGER-funded project.

The MPO has previously supplemented the City of Asheville's TIGER-funded projects with Direct Attributable funds, including the Craven Street Bike/Ped Bridge in 2014, the French Broad River West Greenway in 2015, and the Town Branch/Nasty Branch Greenway in 2018.

The Nasty Branch Greenway project is preparing to go to bid later this year, and its cost estimate has increased. The City of Asheville has requested additional funds, with much of the increased cost related to NCDOT oversight and Construction Engineering and Inspection expenses.

Previously Awarded Federal Construction Funds	Total Request for Federal Construction Funds	Change in Federal Funds
\$3,412,000	\$4,253,000	\$841,000

Staff Report & Recommendations

Impact on MPO Funding

MPO staff coordinated with NCDOT staff to review available funding through FY 2030. The total amount of funds expected to be available is \$17,493,000, after the additional funds already programmed to the Clear Creek Greenway.

If additional funding is awarded to U-5019A, the future balance of available MPO funds would be reduced by \$841,000.

All funding assumptions are based on current federal allotments and are subject to change if a new federal transportation law is adopted.

Staff & Prioritization Subcommittee Recommendation

Recommend a TIP modification for additional federal funds for U-5019A in the amount of \$841,000 as well as the required local match.

Action Required: Consider a Recommendation to the MPO Board regarding the proposed TIP Modification

Item 4D:

Resolution of Support: US 25 (Hendersonville Road) @ Old Brickyard Road Proposed Improvements and Old Hendersonville Road @ Old Brickyard Road

NCDOT is proposing an additional turn lane at the intersection of US 25 (Hendersonville Road) and Old Brickyard Road and intersection improvements at Old Hendersonville Road @ Old Brickyard Road. The plan sheets are provided.

A resolution of support has been requested from the MPO.

Staff Report & Recommendations

RESOLUTION SUPPORTING PROPOSED INTERSECTION IMPROVEMENTS AT OLD BRICKYARD ROAD, OLD HENDERSONVILLE ROAD, AND US 25 (HENDERSONVILLE ROAD) IN HENDERSON COUNTY

WHEREAS, the French Broad River Metropolitan Planning Organization is responsible for regional transportation planning and programming in the Asheville urbanized area, including portions of Henderson County; and

WHEREAS, NCDOT has identified the need for intersection and roadway improvements along Old Brickyard Road to improve safety, operations, and access for residents, businesses, freight traffic, and other roadway users; and

WHEREAS, the proposed improvements include modifications at the intersection of Old Brickyard Road and Old Hendersonville Road, including roadway widening, turn-lane/storage improvements, and associated operational improvements as shown in the preliminary design plan; and

WHEREAS, the proposed improvements also include modifications at the intersection of Old Brickyard Road and US 25 (Hendersonville Road), including roadway widening, geometric improvements, and turning-radius improvements to better accommodate traffic movements at the intersection; and

WHEREAS, these intersections serve an area with commercial, industrial, and local access needs and provide important connections between US 25 (Hendersonville Road), Old Brickyard Road, and the surrounding transportation network; and

WHEREAS, improvements to these intersections are expected to enhance roadway safety, reduce operational conflicts, improve turning movements, and support more reliable travel for passenger vehicles, service vehicles, and freight traffic;

NOW, THEREFORE, BE IT RESOLVED that the French Broad River Metropolitan Planning Organization supports the proposed intersection improvements at **Old Brickyard Road and Old Hendersonville Road** and at Old Brickyard Road and US 25/Hendersonville Road in Henderson County

ADOPTED this the 18th day of June, 2026.

Item 4E:

Advanced Air Mobility (AAM) Grant Application

What is Advanced Air Mobility (AAM)?

Advanced Air Mobility (AAM) refers to a new generation of aviation technologies that enable safe, sustainable, affordable, and accessible transportation using electric aircraft, drones, and other emerging aviation systems. AAM applications can include passenger transportation, cargo delivery, emergency response, medical transport, infrastructure inspection, and other public service functions.

AAM is not intended to replace existing transportation modes. Rather, it serves as an additional component of a multimodal transportation network that can improve connectivity, accessibility, and system resilience.

What is the NCDOT AAM Planning Grant Program?

The North Carolina Department of Transportation (NCDOT) Division of Aviation has established the Advanced Air Mobility Planning Grant Program to assist local governments, MPOs, RPOs, airports, and other eligible entities in evaluating the potential role of AAM within their communities.

The program provides funding for planning activities such as:

- Transportation needs assessments
- Infrastructure and vertiport siting studies
- Feasibility analyses
- Multimodal integration planning
- Public engagement and outreach
- Policy and implementation strategies

The grant program supports planning efforts only and does not fund infrastructure construction.

Why Could AAM Be Relevant to the French Broad River MPO Region?

The French Broad River MPO region possesses several characteristics that may make it well-suited for future AAM applications:

Staff Report & Recommendations

- Mountainous terrain that can create transportation challenges and limit connectivity
- Vulnerability to natural disasters, flooding, and landslides that may disrupt traditional transportation networks
- Growing tourism and visitor travel demand
- Rural communities that may benefit from improved regional accessibility

Potential regional use cases could include:

- Emergency medical transportation
- Disaster response and recovery operations
- Search and rescue missions
- Rural and regional cargo delivery
- Infrastructure and utility inspections
- Future passenger mobility connections

What Could a Regional AAM Plan Accomplish?

A regional AAM planning effort could:

- Identify priority transportation needs and potential use cases
- Evaluate opportunities for integration with existing transportation systems
- Assess potential vertiport, airport, and landing facility locations
- Analyze community, environmental, and equity considerations
- Support future resilience and emergency management initiatives
- Position the region to pursue future state and federal funding opportunities
- Inform future updates to the Metropolitan Transportation Plan and related regional planning efforts

Action Required: Consider Recommending Application to the NCDOT AAM Grant Program.

Staff Recommendation: Recommend Application to the NCDOT AAM Grant Program.

Committee & Workgroup Updates

Prioritization Subcommittee— met on April 1st, next meeting June 3rd.

- P8 Express Design Assignments

5307 Subrecipient Workgroup- met on May 19th, next meeting August 18th.

Points of Business/Discussion:

- Grant management update by the City of Asheville including discussion of funds at risk of lapsing
- Shared document repository discussion
- Locally Coordinated Plan update
- ConCPT Grant application requirements
- Driver/Workforce Issues
- Knowledge-sharing opportunities within current group composition
